Panels & Content Boxes

Header with white background
This is a basic content box with white background header

A screenshot of a web page layout. The top section is a header with a cool gray background, containing the text "Header with cool gray background". Below the header is a content box with a white background, containing the text "This is a basic content box with white background header".

A diagram of a rectangular box. The top portion of the box is a solid blue rectangle. The bottom portion of the box is white. The text 'Header with primary background' is centered within the blue rectangle. The text 'This is a basic content box with white background header' is centered within the white rectangle.

A diagram illustrating a basic content box. It consists of a rectangular container with a dark gray header at the top and a white content area below it. The header contains the text "Header with dark gray background" in white. The content area contains the text "This is a basic content box with white background header" in dark gray.

UNBORDERED

	Header with white background
	This is a basic content box with white background header

A screenshot of a web page showing a content box. The box has a white background and a header with the text "Header with white background" in a bold, black font. Below the header, the text "This is a basic content box with white background header" is displayed in a standard black font. The box is set against a light gray background.

A diagram of a content box. The top part is a header with a white background, containing a gear icon and the text "Header with white background". The bottom part is the main content area, also with a white background, containing the text "This is a basic content box with white background header".

With Header Buttons & Navigation

BORDER

LINBORDERED

A diagram illustrating a content box structure. The box has a white background and a header section. The header is divided into four parts: a gear icon, the text 'Content title', a bookmark icon, a bar chart icon, and a pencil icon. Below the header is a large white area containing the text 'This is a basic content box with white background header'.

A content box with a solid blue header and a white body. The header contains a gear icon, the text "Content title", a "link" button, and an "EXTRA SMALL" button. The body contains the text "This is a basic content box with solid background header".

A screenshot of a content box with a solid blue header. The header contains a gear icon, the text 'Content title', and three icons: a bookmark, a document, and a pencil. Below the header, the text 'This is a basic content box with solid background header' is displayed on a white background.

A screenshot of a content box. The header is a light gray bar containing a gear icon on the left, the text "Content title" in the center, and three icons (bookmark, document, and pencil) on the right. The main body of the box is white and contains the text "This is a basic content box with white background header".

A screenshot of a content box with a white background and a header. The header contains a gear icon, the text "Content title", and a table with three columns: "1", "2", and "LIST ▾". Below the header, the text "This is a basic content box with white background header" is displayed.

A screenshot of a web page layout. At the top is a dark blue header bar. On the left of this bar is a gear icon. In the center is the text 'Header with white background'. On the right are three icons: a bookmark, a document with a grid, and a pencil. Below the header bar is a large white content area. At the top of this area is a smaller header with the text 'Header with white background'. Below this is a large white box containing the text 'This is a basic content box with white background header'.

Colour Gradients — Alternative Colour Gradient Set

Why Colour Gradients?

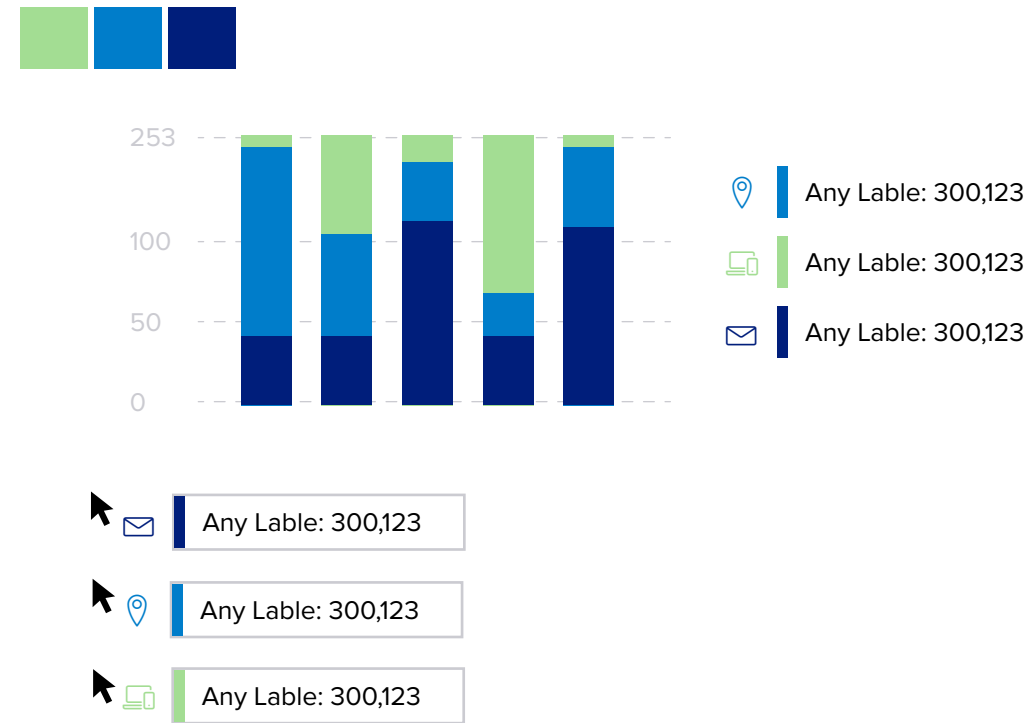

With all the fantastic data flows through our platform, there also comes the responsibility of representing them in the best way possible. We developed a solution that can give our platform the ability to scale. These gradients created data points that are visually engaging, unique and are used with purpose. This is our way of ensuring a **enjoyable** and *cohesive* visual experience.

Buttons - Using 2-Colour Gradient Palette

Grafe & legend example using 3 color pallet

This image displays a collection of 15 distinct user interface (UI) design elements, organized into three rows of five. Each element is presented with a small icon and a label.

- Row 1:**
 - Header with white background:** A dark header bar with a white background area.
 - Button:** A dark rectangular button with the text "BUTTON".
 - Form:** A dark form with a light gray input field and a dark button.
 - Table:** A table with a dark header and a light gray body.
 - Table:** A table with a dark header and a light gray body.
- Row 2:**
 - Custom Select:** A dark header with a light gray dropdown menu.
 - Modal:** A white modal dialog with a dark header and a light gray body.
 - Table:** A table with a dark header and a light gray body.
 - Table:** A table with a dark header and a light gray body.
 - Table:** A table with a dark header and a light gray body.
- Row 3:**
 - Table:** A table with a dark header and a light gray body.
 - Table:** A table with a dark header and a light gray body.
 - Table:** A table with a dark header and a light gray body.
 - Table:** A table with a dark header and a light gray body.
 - Table:** A table with a dark header and a light gray body.
